Address : Bandarawela,Sri Lanka.

PROFILE

Physical Science graduate (Computer Science, Physics, Mathematics) from the University of Ruhuna, concurrently pursuing a BIT at the University of Colombo School of Computing. Hands-on full-stack developer with project experience building database-driven systems using JavaScript/TypeScript, React, Node.js/Express, Flutter and PostgreSQL, alongside a Java and software engineering foundation from university coursework. Worked on REST APIs, role-based access control, authentication (including 2FA) and CI/CD pipelines across multi-repository applications. Seeking a Software Engineering, Full-Stack, Backend Development or QA role where I can apply practical programming and problem-solving skills.

EDUCATION

- **BSc in Physical Science - University of Ruhuna, Sri Lanka.** *2023 - 2026*
  Majors: Computer Science, Physics, Mathematics | Current GPA: 3.03 / 4.00
  Relevant coursework: Data Structures & Algorithms, Object-Oriented System Development, Software Engineering, Database Management Systems, Data Mining, Data Communications & Networks, Mathematical Statistics, Linear Algebra, Real Analysis, Probability, Operating Systems, Electronics & Microcontrollers

- **BIT (External) - University of Colombo School of Computing** *2025 - Ongoing*
  Coursework: Database Systems, Fundamentals of Software Engineering, Web Application Development, Information Systems, Mathematics for Computing

- **G.C.E. Advanced Level (Physical Science Stream)** St. Joseph's College, Bandarawela. *2018 - 2021*

PROJECTS

SpendWise - AI-Powered Personal Finance Manager | *University Group Project* *2026*

Technologies: Flutter, Firebase, Node.js, React, Typescript

- Contributed to the development of a cross-platform personal finance application using Flutter, enabling users to manage expenses, budgets, and savings goals.
- Developed and enhanced mobile application features, including expense tracking and financial dashboards.
- Implemented financial analytics features to help users monitor spending patterns, evaluate their financial health, and track budget performance.
- Contributed to the integration of AI-powered financial recommendations based on users' financial data.
- Collaborated with the development team and supported the admin dashboard through backend code reviews.

Cloud-Native Logistics & Inventory Management Platform | *Personal Project* *2026*

Technologies: React.js, Node.js, Express.js, TypeScript, PostgreSQL, GitHub Actions

- Designed and developed a full-stack logistics and inventory management platform with inventory tracking, stock transactions, reporting, and dashboard analytics.

- Implemented JWT authentication and Role-Based Access Control (RBAC) to ensure secure access to application features.
- Developed atomic stock operations and concurrency control to maintain data consistency and prevent errors during simultaneous transactions.
- Implemented audit logging and reporting features to improve inventory traceability and support operational monitoring.

VoyaGo - Hotel Booking Website | *First-Year Project* *2023*

Technologies: PHP, MySQL, Bootstrap 5, JavaScript

- Developed a full-stack booking web app with secure authentication and a relational database managing accounts, bookings, and dynamic content.

SKILLS

- **Programming & Data:** Python, Java, JavaScript/TypeScript, SQL, PHP, database design (MySQL/PostgreSQL), REST APIs
- **Application Development:** Flutter, React, Node.js/Express, Firebase, Bootstrap - cross-platform mobile & web applications
- **Analytical & Quantitative:** Process Monitoring, Documentation & Record Management, Problem-Solving
- **Tools & Platforms:** Git/GitHub, Linux (Ubuntu), Docker, CI/CD (GitHub Actions), Microsoft Excel (advanced)
- **Soft Skills:** Communication, Teamwork, Leadership, Time management, Risk management, Adaptability, Attention to Detail

CERTIFICATIONS & PROFESSIONAL DEVELOPMENT

- Excel for Industry Readiness - INTECH, University of Ruhuna 2026
- Power BI for Beginners – Simplilearn 2026
- Foundations of Project Management - University of Moratuwa Open Learning Platform 2026
- Python for Beginners - University of Moratuwa Open Learning Platform 2026
- Certificate Course in Computer Application, Internet & E-mail - Vidatha Resource Center, Ella 2018

EXTRA-CURRICULAR ACTIVITIES

- Member: SEDS Ruhuna, Physics Society, Ruhuna Hikers Club, Computer Science Society -University of Ruhuna.
- Participant, Road to Rush Coder 3.0 Hackathon - Department of Computer Science, University of Ruhuna 2025
- Participant, Capture The Flag (CTF) - Introduction to Cybersecurity Workshop, ANIMUS 1.0 2026
- Runners up (Intermediate Level), CodeRally 7.0 Hackathon - IEEE Computer Society SBC of IIT 2026
